Summary

Strategic Product Leader with over 11+ years of experience building and scaling **AI-first, data-intensive B2B SaaS platforms** across competitive intelligence, FinTech, and enterprise analytics. As Director of Product at Contify, partnered closely with the CEO to define and execute the product vision, leading the productization of **GenAI capabilities** including Ask Athena, automated facts and insights, semantic search, and enterprise-grade governance. Demonstrated expertise in end-to-end product lifecycle management, platform strategy, and complex integrations, embedding intelligence into customer workflows through APIs, dashboards, and enterprise data platforms. Effectively collaborated with engineering, sales, product marketing, and customer-facing teams to drive adoption, reduce signal noise, and deliver measurable customer and business impact at scale.

Employment History

Director, Product Management - Contify, Gurugram, India

JAN 2025 — PRESENT

A competitive intelligence platform that delivers strategic updates on competitors & customers

- **Owned end-to-end product strategy and execution for Contify's AI-driven competitive intelligence platform**, spanning GenAI (Athena), Newsfeed, Dashboards, APIs, and Enterprise Integrations.
- **Led the productization of GenAI at scale**, launching Ask Athena with agentic workflows, automated facts and insights, semantic search, citations, and governance controls to deliver enterprise-grade trust.
- **Drove platform-wide signal quality improvements**, including AI-generated highlights, semantic deduplication, primary vs mentioned entity classification, and verified LLM tagging—significantly reducing noise for enterprise users.
- **Built scalable taxonomy and governance systems**, enabling admins to control classification, ordering, automation, and consistency across Newsfeed, Search, Dashboards, and Distribution.
- **Modernized analytics and consumption surfaces**, delivering fact- and insight-driven dashboards, interactive visualizations, and workflow-aligned UX improvements.
- **Expanded Contify into enterprise data ecosystems**, launching Snowflake, Gong, SharePoint, and collaboration tool integrations to embed intelligence directly into customer workflows.
- **Partnered closely with the CEO, engineering, and GTM teams** to align product investments with strategic outcomes, enterprise adoption, and long-term platform scalability.

Senior Product Manager at Kelp Global, Mumbai

NOVEMBER 2021 — OCTOBER 2024

A fin-tech startup offering B2B SaaS that streamlines the private equity investment lifecycle

- Led the launch of Kelp Global, transforming deal sourcing and portfolio management for global private equity firms which **generated \$2M+ in annual revenue (2.5x)** and increasing positive leads by 35%
- Conducted comprehensive market analysis on over 20 global competitors, strategizing and prioritizing **150+ features while documenting 1,100 user stories** for KelpGlobal; findings identified market opportunities and optimized the product-market fit to enhance value propositions.
- Led **agile software development practices** in a data-driven environment, defining product requirements and prioritizing backlogs to ensure timely delivery of features aligned with customer and business goals, resulting in a 30% increase in team efficiency.
- Engineered a **GenAI-powered tear sheet to summarize company information**, enhancing analysis efficiency and automating data gathering with telemetry solutions.

Chief Product Manager at 3LOQ Labs, Hyderabad

DECEMBER 2019 — NOVEMBER 2021

Specializes in AI-driven analytics, enhancing marketing campaigns performance for banks

- **Led the product portfolio** that contributed 75% of total revenue, defining vision and roadmap using Agile practices to capitalize on market opportunities and deliver high-impact solutions.
- **Promoted to Chief Product Manager** within 1 year for exceptional performance and directed product development, product innovation, customer feedback, and emerging opportunities to align with business strategy
- **Partnered with the CEO to drive business development**, optimizing the lead pipeline and enhancing customer relationships by addressing use cases and delivering tailored marketing materials, converting 2 high-value leads.

Key projects:

- **Habitual.AI:** Led the revamp of an AI-driven digital banking recommendation platform, driving a **16% reactivation of inactive users by recommending personalized**, undiscovered features to deepen engagement.
- **Recommendation Systems:** Architected multi-class classification models for leading Indian banks, boosting bill payment and savings account engagement, and delivering a 32% uplift in campaign conversions.

Senior Manager, Card Analytics at Axis Bank, Mumbai.
